

AIX Basics (WBT)

Course #:U8AN10G
Duration: 4 Days
Price: 600.00 USD

Course Description

Click to preview our new AIX interactive game!

This course enables you to perform everyday tasks using the AIX operating system in a 100% self-paced environment.

This course contains interactive lessons that focus on skill growth with embedded activities, knowledge checks, and reviews. The course also contains exercises mirroring the instructor-led version and are performed in a simulated environment that does not require connection or access to a live system which provides extreme flexibility in taking the course.

WEB BASED TRAINING (WBT) IS SELF-DIRECTED AND SELF-PACED. Before you enroll, review the system requirements to ensure that your system meets the minimum requirements for this course. **AFTER YOU ARE ENROLLED IN THIS COURSE, YOU WILL NOT BE ABLE TO CANCEL YOUR ENROLLMENT.** You are billed for the course

when you submit the enrollment form. Web Based Training courses are non-refundable. Once you purchase a Web Based Training course, you will be charged the full price.

Web Based Training courses are sold on a per-user basis. WBT courses provide a training advantage for you and your teams, helping you get up to speed quickly. Take the courses you need, at your convenience and at your own pace.

You can start the course at any time within 12 months of enrolling for the course. After you register/start the course, you have 30 days to complete your course. Within this 30 days, the self-paced format gives you the opportunity to complete the course at your convenience, at any location, and at your own pace. The course is available 24 hours a day.

System Requirements

To view the lectures and perform the lab simulations for this course, the student workstation must meet the following hardware requirements:

- of 256 MB of memory
- 98 or higher
- card with headset or speakers
- Explorer 5.5 or higher, (but will also work in any flash-enabled browser)
- speed internet (56K bps or higher)

Objectives

After taking this course, you will be able to:

- Log in to an AIX system and set a user password
 - Use AIX online documentation
